## 1. Internships

### Graduate Research Intern Explainable AI

Sep.2021-Apr.2022

*TNO: Netherlands Organisation for Applied Scientific Research*

I worked on explainable recommendation of case law using text mining, embeddings, and counterfactual explanations. The internship took place within FATE, a flagship project of TNO's *Appl.ai* program. FATE stands for FAir, Transparent and Explainable decision making.

### Intern Innovation Platform

Mar.2021-Aug.2021

*NS: Netherlands Railways*

I helped realize an ethical approach to AI at NS by 1) working on AI policy and making it applicable to developers (ethics by design) and 2) researching tools and techniques for implementing values such as explainability and fairness.
